

The 2021 Forever Orange Scholarship

Scholarship Overview

The **2021 Forever Orange Scholarship** provides scholarship for half of the tuition for students who enroll full-time in a qualifying residential graduate degree or certificate program at Syracuse University. The scholarship is automatically available to all Class of 2021 graduating seniors who are eligible for admission—no separate scholarship application is needed. Graduating seniors who have already been admitted to a qualifying graduate program are also eligible. The scholarship cannot be combined with any other program-granted graduate funding awards, such as assistantships, fellowships, or other scholarships, nor can it be deferred to future terms. The scholarship is not available for online programs.

Guidance on Selecting a Graduate Program

There are a wide variety of programs from which to choose—degrees that directly continue your undergraduate studies and those adding another dimension to your qualifications. Our graduate staff and faculty are available to address your questions and guide you through the application process. We encourage you to consult with the career advising staff in your college for additional guidance and assistance.

Qualifying Residential Graduate Programs

This comprehensive list of 2021 Forever Orange Scholarship programs includes links to program overviews, allowing you to become familiar with the nature of the program, the curriculum, and admissions requirements. The Scholarship only applies to residential programs. Application fees for graduate programs are waived for all Syracuse University students. Applying to a graduate program can be done entirely online—[apply now](#).

Once admitted to a graduate program and upon officially completing your undergraduate degree, you may enroll in the first term of entry available in 2021.

Eligibility Requirements for 2021 Forever Orange Scholarship:

As a member of the Class of 2021, you are eligible for the 2021 Forever Orange Scholarship if:

- You graduate in December 2020 or have submitted a Diploma Request for May, June, or August 2021;
- You officially complete your undergraduate degree in December 2020, May 2021 or August 2021, prior to starting coursework for a graduate program;

- You are admitted to study full time in a qualifying residential graduate program (see list of qualifying programs below) and begin the program no later than the start of the 2021-22 academic year.

Note: Deferring to a future semester beyond fall 2021 is not permitted. Also, you must maintain full-time continuous enrollment status throughout the duration of the program.

Questions?

For a quick and direct connection to more program specific and admissions information, see the contact listed below for each school and college. If you have general questions regarding the Scholarship, please contact Amy Sloane-Garris, Graduate School.

List of Qualifying Programs by School and College
